Activate Your Replacement Device

Before you activate your replacement device, your replacement device must be charged. These instructions apply to phones and data-only devices.

1️⃣ BACK UP and SAVE your contacts and content from your original device.
   For iPhones
   • Sync your original device with iCloud® service or iTunes® program to back up all contacts, music, apps, photos, and files.
   • Connect your replacement device to your PC and follow the on-screen instructions.
   • Sync with iTunes.
   For all other devices:
     Follow the device manufacturer’s recommended back up process.

2️⃣ TURN OFF your original device.
   If your original device was lost or stolen, skip to Step 4.

3️⃣ REMOVE your SIM card from your original device (if applicable).
   Your SIM card can be found in a tab located on the side of the device or behind/next to the battery when removing the back cover.

4️⃣ INSERT your SIM card into your replacement device.
   Turn on your replacement device.
   • If you received a new SIM card and know your old SIM card number, you may activate your new SIM card by signing into your account on Rogers.com. If you don’t know your old SIM card number, please contact Rogers at Rogers.com/contactus.
   During the repair or exchange process, we may or can delete all the eSIM profile on the device. If this happens, your carrier will supply you with a new eSIM card at no extra charge.
